Towed vehicle

2020-04-15

If you park a vehicle in a place where it is prohibited or where it impedes the traffic or poses a threat to the other vehicles, Municipal Police may remove the vehicle from the road at the expense of the driver (Article 130a of the Law on Road Traffic). The removed vehicle is transported to the car park.

In this case, please contact the Municipal Police officer on duty (dial 986), which will inform you in detail how to get back the car.

The basis for the collection of the car from the car park is a permit issued by the Municipal Police officer on duty in Krakow. The condition of the authorization is to demonstrate the identity document by a driver, a document authorizing the use of the vehicle.
